

AC Organisation Activity Report June 2008

I. General

- This month highlights the first court case opened as a tool for citizens in the fight against corruption. It has still been active in recruiting victims, publicizing the goal and the objectives of AC Cameroon to Cameroonians, building legitimacy through meetings with other organizations in charge of fighting corruption.

II. Investigations

AC Cameroon was making 10 field missions during the May month. This was because of lack of personnel. This month, AC Cameroon was focused to start with the first court case. Much of efforts were concentrated in the court some others important issues like field investigations were pushed back in priority.

- The number of hotline calls decreased from 50 on May to around 15 in June. This is as a result of shifting focus from processing complaints to legal work.
- Contact was maintained with victims of Etoudi market (shoppers, soya meat sellers and taxi bikes' drivers). This month, traders still complained of two times of officials of Ministry of Trade who are not appointed to control prices in the markets but who are doing it. The agreement between AC Cameroon and them is that the next time that those officials are coming, they should give them an appointment as if they want to pay them the bribe that they asked and this day, AC Cameroon is coming with a bailiff to collect evidences against those officials.
- A problem was raised in Tongolo about the construction of road. The company was contracted for this road's construction was supposed to finish it 6 months ago. But until now it's not the case and people pf this neighbouring believe that there are no sanctions because the owner of this company is a former minister and an actual deputy to National assembly. The question now is whether beneficiaries' development project can be represented in court in case of corruption.
- AC Cameroon received complaints coming from traders of Tongolo. The complainers, who were three, accused the prices controllers appointed by the government and the sanitary service to force them to pay bribe through false accusations. The officials are asking important sums of money like 105 000Fcfa for the first trader, 30 000 for the second and 40 000for the last. The first trader was said he was forced to close his shop because of all this pressure. In one of the incidences, the trader was asked to pay for water that was not removed from the road in construction.
